## MODERN LIVING IN A TRADITIONAL NEIGHBOURHOOD

Welcome to the new urban lifestyle of **2187 Deschenes**. Four semi-detached homes are being built by the vast green space at the Ottawa River and the Parkway. A short walk will take you to Westboro Beach, schools, Carlingwood Plaza, the shops on Richmond Road and the new LRT. Bike paths lead to Britannia Beach and Downtown.

Your family will discover everything the location has to offer and the Redevelopment Group will custom build your new home to reflect your personal style. This is a rare opportunity to work with one of Ottawa's premier builders.

The Redevelopment Group believes in sustainable urban development and since 1992 has built more than 250 condos and townhomes, developing unique spaces that reflect each homeowner's personal style, creating homes that reflect the surrounding neighbourhoods and contribute to the vibrant urban communities within which they are built. Construction on these homes has started for July occupancy.

The quality of our designs and materials have always been superior and **2187 Deschenes** will be a jewel on the street. The modern design and finishes reflect the exciting transformation

taking place in Ottawa.

Standard features include oversized windows, 2 modern ribbon style fireplaces, air conditioning, 9' ceilings, maple flooring, porcelain tile, custom trim, granite counters, under mount and above counter vessel sinks, custom-designed Deslaurier kitchens, designer fixtures, walk-out from the lower level and the highest level of quality construction.

The first phase is under construction for July occupancy and the second phase will start in May for September occupancy.
